

## Work Experience

### UX Designer @ UofT – Innovation Hub

April 2024 - Present — Toronto, ON

- Accomplished a **30% increase** in user engagement by leading the website redesign project.
- Developed **Family Care Office mini-site**, helping **1,000+** student-parents navigate campus support.
- Led **WordPress** migration of Figma prototypes, developing **documentation** and **design system**.
- Developed reusable UI components with **CSS** and **JavaScript**, ensuring scalability of future builds.

### Lead UX/UI Designer & Developer – Neo Law Group

May 2025 - October 2025 — San Francisco, CA

- Led **end-to-end design and development** of law firm website serving **800+ nonprofit organizations**.
- Developed **+20 component design system** and **technical documentation**.
- Pitched and presented **design solutions** to the firm and other stakeholders, influencing product direction and strategy.

## Projects

### GoAble: Accessible Washroom Finding App

Tailored Washroom-finding app UX case-study

- Developed **Design System and Tokens**, and **interactive prototypes** via **Figma Variables**
- Features **curated search based on user preferences** and washroom pages with **real-time updates** on **availability, amenity offering, and issues**
- Resulted in **real-time, friction-less, tailored information** for users with specific washroom needs.

### Socratic.ai: Tailored Scholarship AI Platform

Anthropic Hackathon – Best application of Human-AI Interaction

- **Stood a team up** and **led UX Design** over 7-days.
- Developed a **0→1 SaaS application** that drafts and tailors your application based on scholarship hidden requirements.
- Product is a **vector-based canvas** with **multi-agent interaction**.
